## To Advertisers.

All transient advertisements in the Democrat are due and payable in advance, according to our published terms, and henceforth payment must be made in advance or the advertisements will not appear.

The editor of the Louisville Journal says that we admit now that the American party did expel the Abolitionists from their body. The people of this city know that we were the first to publish news of the bursting up of the faithful at Philadelphia. The Know-Nothings had to read the Democrat to see how the Southern Know-Nothings passed their resolutions, and how the Northern Know-Nothings left, cursing and swearing. Up to that time the Know-Nothings organs South shouted for Sam at every victory in the free States. We informed them that this Northern Sam was Sambo, but the editor of the Louisville Journal denied it vociferously; as fiercely as he now asserts that the Democrats North are Abolitionists; and his denials then were just about as false as his assertions were.

The Know-Nothings had formed a party, had won victories, but had not found out what their objects or purposes were. But with hopes, they gathered themselves together in Philadelphia, made a creed, exploded, and perished. They revealed to all men that half of Sam, and the South should not profit by it. "The whole meaning," says the editor, "was merely that the South ought not to profit by the repeal. The members of the convention contented themselves with saying that Kansas ought to come into the Union as a free State, but directly refused to commit themselves against its admission as a slave State."

This juggery of the editor of the Journal is a capital joke. The Soths resolved that they were decidedly opposed to the extension of slavery into territory now free. They did not denounce the repeal of the Missouri compromise at all; they did not commit themselves against it. On this slavery question, the Know-Nothings and Soths pursue the same juggling policy.

The difference between us and the editor of the Journal is, that we tell the plain truth about those sham pretenders to Democracy in the North, whilst the editor of the Journal tries to persuade the South, contrary to the fact, that his faction is worthy to be trusted. He is ready to affiliate with the Know-Nothings of New York, openly Freesoil as they are. We repudiate this Soft party, and tell our readers plainly that they are not to be trusted.

In order to affix Abolition sentiments upon the Northern Democracy the editor of the Journal quotes from the Albany Atlas and Chicago Tribune, both the sworn enemies of the old line Democratic party; the latter a well-known leading organ of the Know-Nothing Abolition party of Illinois. He undertakes to prove the soundness of the American party, because a few of the noted Abolition organs denounce them. Now he knows that the Republican party regard the Democratic party as their old enemy, the one they have to beat—the allies of the slaveocracy. They regard the "American" party as likely to divide them, to introduce new issues, and weaken the common opposition to the Democratic party. The Abolitionists are not all Know-Nothings, but the Know-Nothings are nearly all Abolitionists. The two organizations interfere with each other, and the former connection of the Know-Nothings with the South render them suspect by their allies.—The latter tolerated them last year, and they have united this year, the Abolitionists requiring the Secret Order to vote only for Abolitionists.

A BASKET OF CHIPS. By JOHN BROUGHTON. New York: Bruce & Brother.

This basket contains some pretty large chips, intermingled with smaller ones. In general, it is as "smiling as a basket of chips."

These works are for sale by Messrs. Morton & Griswold.

There was a heavy wind prevailing yesterday which prostrated the telegraph wires in many places. This will account for the absence of our usual telegraphic report.

Some "two men" had their own amusement, and afforded some little to the public by a display of the performances of "two dogs" geared in harness attached to a miniature carriage, in which they (the men) were seated—being hauled all around, around."

PEOPLE'S EXPRESS COMPANY.—We call the attention of the public to the advertisement of Sabine, Foster & Co.'s People's Express Company.

This is the only direct line from Louisville to Chicago. Mr. Elias Thompson, is agent in our city, and any business confided to him will meet with prompt attention. Office No. 552 Main street.

We had the pleasure of a visit yesterday from the Hon. David Merriweather, Governor of New Mexico. He reached his home in this country on Friday last, and is on his way to Washington.

He gives an interesting account of the Territory. The Indian tribes are all peaceable in that region. The Governor has spent the last season in making treaties with the various tribes, and has succeeded.

Colton's Great Atlas of the World.

The first volume of this best of all Atlas publications is completed. It is indeed a volume of vast importance to all persons in whatever department of business engaged; for in addition to the accurate maps showing the division lines of States, counties, towns and rivers, there are such statistical tables—classified and arranged—as cannot be found elsewhere.

Within the compass of the statistics may be found an authentic statement of the condition of the country, its population, resources, productions, &c., besides a general and succinct history of the formation of each State and Territory.

The volume before us embraces North and South America, and the islands, seas, &c., within the range of these western continents.

The second volume will follow in regular numbers as the first. Each number being carefully preserved and bound, when the work is complete, will make such an accession to the library of the scholar, or man of business, as to render it invaluable. It is a compendium of the world's history and products, and a faithful chronicle of human achievements in this age and in all climates.

The work will consist of one hundred and seventy-five maps, each accompanied by a table of reference and a synopsis of its history. We have not the time to point to its advantages over all other similar publications. We suppose, however, that it is universally conceded to be the most complete work of the kind ever gotten up. The cost of the undertaking is put down at \$70,000, and has given employment to many of the best engravers in the city of New York and elsewhere.

It is an honor to our country, acknowledged throughout the world, that the magnificent scale upon which it has been commenced and thus far completed, eclipses all other attempts of the kind.

Mr. H. N. Lockwood is general agent for Kentucky. He may be found for a few days at the book-store of Mr. Crump, on Fourth street, west side, between Main and Market streets. Give him a call, by all means.

Jas. Gregory, lumber merchant, on Jefferson street, between Preston and Jackson, has just received a large shipment of superior Laths, which is selling off very low in order to close them out before cold weather. He has also a large stock of dry pine lumber, which he is selling at much reduced prices for cash.

We call the attention of the public to the card of Messrs. Samuel P. Weisiger, Wm. Hughes and Jno. D. Taggart, surviving partners in the late firm of A. S. White & Co. They will continue the Pork Packing Business under the style of the old firm.

A lady passing along near the corner of Sixth and Walnut streets was knocked down and quite severely injured by a runaway horse. We did not learn the name of the lady.

a majority of the next Congress, and that they will execute the programme they make out as certainly as they, in former times, killed United States Bank, established an independent treasury, ratified the tariff of 1842, annexed Texas, and whopped Mexico.

This is the editor of the Journal expects. He has seen camp-followers, and time-servers, and traitors in the Democratic party before. He has tried to make great men of them; he has stuck them up in his columns as high authority. He has threatened the Democracy, and flattered his own party, with the wonders that were to be achieved by a traitor here and there, and by a few fishy organs—high Democratic authority with him and his party, but as it always turned out, of no standing with their own.

Well does the editor of the Journal know how all his calculations upon defections in the Democratic party have ended in smoke. They were always going to defect some object or purpose of the party, but always failed; and he foresees that what has been will be again.

The next we shall hear of the high Democratic authorities that he parades before his readers, they will be off into some Know-Nothing lodge or Abolition convention, no more to trouble the Democratic party. Their places will be supplied by men of better stuff. Let the chaff go; there is plenty of wheat to supply its place. There are thousands of Whigs who scorn the new lights and sectionalisms. They are allies, not enemies, of the Democratic party now; so we can afford to set the trash adrift, and the editor of the Journal knows it.

New York votes to-day. The Republican party, ala the Abolition party, had all the chances until recently. It is stated, however, that the old line Whigs have determined to vote with the Soths, and in that case the contest may be close between these two parties. It's of no great consequence which whip, unless the charge of the Abolitionists, that the Soths are supporting the Nebraska bill, is true. If they are guilty of that, they will do.

The Commonwealth says: "We understand that the statement in many of the newspapers of the day, that Mr. Crittenden has accepted an invitation to lecture upon slavery in Boston, is a mistake. We are assured he has accepted no such invitation."

FRESH OYSTERS AND BUCKWHEAT.—Messrs. W. H. Burkhardt, receive daily express, D. A. Piper & Co.'s, celebrated fresh oysters. Families and hotels can be supplied by the case or can. Also, Pennsylvania buckwheat put up expressly for fauna.

## DR. BLACKWELL'S SARSAFARILLE AND VERSICOLA.

This Compound has excelled all of its rivals in doing good to the vast number of afflicted throughout the southwestern country. It has won its way steadily and surely into public favor, without advertising long lists of worthless certificates, and if the afflicted would consult their health and happiness they will give it a trial for themselves.

For sale by Dr. E. VAUGHAN, Druggist, No. 3 Third street, Louisville, Ky., and by Druggists generally in the city.

It can be sent as directed to any person in the country at \$1 per bottle, or six bottles for \$5. and &w.

What is the Use?

Of any one paying a high price for an article when the same thing can be had for less price, and at the same time as good in every respect, (and better in some), as he has priced "article." Carpenter & Swynner make "Amboytes" for \$2 that will compare with the best in the city. For brilliance of tone and finish, they are unequalled. Another good item is, that are put up with only one glass, and you can see through them, and double lined to ensure its safety. If you should wish to carry it three squares. The double glass is of steel nothing; it adds no beauty to the picture—makes it none the less liable to damage, and is only a beaded break work for a weak enemy.

## Why Females Suffer in Health.

## THE MARRIED WOMAN'S Private Medical Companion,

BY DR. A. M. MURDEAU.

PROVISIONS OR DISEASES OF WOMEN.

Our Handbook Editions (\$600) Menstr., pp. 25.

A standard work of established reputation, classed in the catalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States.

Every woman can here discover, by comparing her own case with those given, the cause of her disease, and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numbers of ailments to which she is subject. The wife about becoming a mother has often need of instruction and advice in respect to her situation, which she will find here. This book tells her what is master, and what she can do for herself, in every detail, and gives an exact account of what is occurring elsewhere.
